## Skills, Achievements & Other Experience

---

- **Big Data Projects** (2023): (Group) Best data visualization project in class regarding "Indonesian Natural Disaster" analysis. I was the leader of 2 other members to create this project, where this project was composed of several steps such as data collection, data processing, data analysis, and creating visualizations.
- **Cloud Computing Projects** (2023): (Individual) Organized the successful development of an AWS project and become 2 of all students in class who can successfully create challenge project about AWS. By creating a website that has database, and connecting the website database with AWS Relational Database Service (RDS).
- **Database Project** (2022): (Group) Lead a hospital website's database project enabling CRUD operations. The steps include researching the hospital's database needs, designing the database and its relationships (CDM & PDM), creating and managing database using MySQL, creating website using PHP/MySQL, and deploying the website.
- **Human Computer Interaction Project** (2022): (Group) Leading the Augmented Reality (AR) project about Kalimantan culture. By creating custom musical instrument and house assets using Blender and Unity to display the assets when scanning the objects.
- **Hard Skills:** Design database & SQL, Data Cleansing, Data Normalization, Data Visualization (Tableau, Google Data Studio), R, Python, Machine Learning, Operate and Manage a Cloud Server, Geographic Information Systems (GIS), HTML, CSS, JavaScript, Git Version Control, Bootstrap.
- **Soft Skills:** Leadership, Communication, Time Management, Teamwork, Critical Thinking.
- **Interest:** Data Analysis, Community Involvement.
